

# Web Development Task 2

My website will consist of an online portfolio showcasing my work for people and companies who may be interested in hiring me or commissioning work. There will be a page for each category of work in my portfolio, being character design, photoshop posters, illustrator posters, 8-bit art, logos and mascots, poetry art and typography art. There will also be an about and contact page, as well as a commission page. I will also have a small page dedicated to each art piece, explaining the history and idea behind it.
